INDUSTRIAL  
EXCELLENCE**

## ABOUT US

# FACILITIES

AXE is a premier provider of custom-designed process equipment for the upstream and midstream oil and natural gas sectors, proudly serving clients across the Permian Basin and beyond. In addition to our expertise in process equipment, we offer full-service fabrication, inspection, and structural steel solutions. Our facility is equipped with cutting-edge tools and staffed by skilled professionals dedicated to delivering top-tier craftsmanship. From complex structural steel projects to precision fabrication and thorough equipment inspections, we ensure that every project meets the highest industry standards. Our commitment to quality, safety, and customer satisfaction drives us to provide reliable, customized solutions that optimize production and strengthen operational efficiency in the energy sector.

→ **50,000 sq ft**

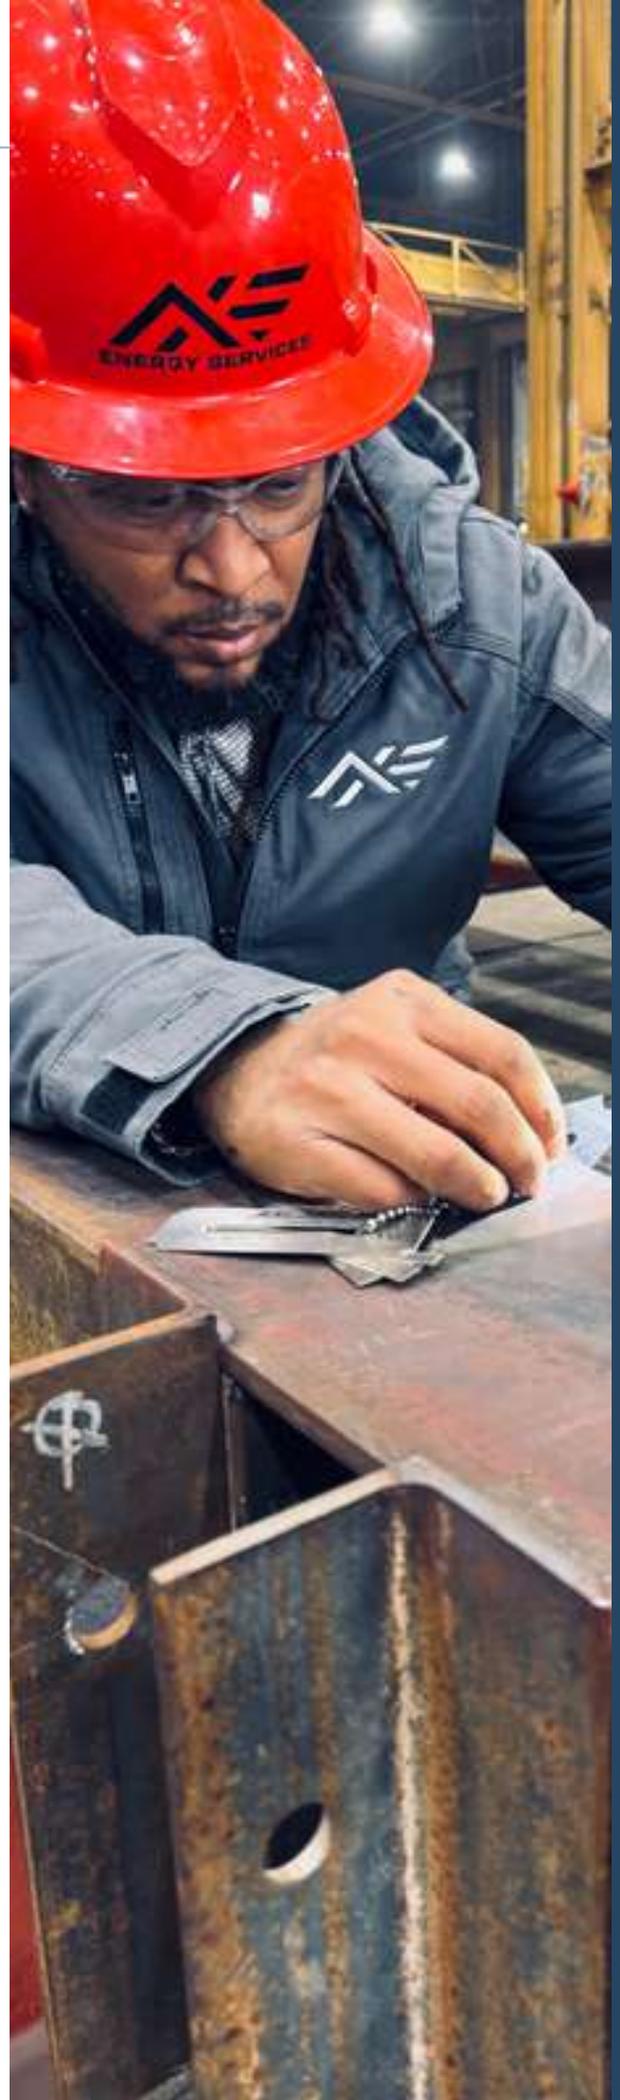

of Industrial operating space for commercial projects

of facility space

→ **1 Goal**

Help you in your pursuit of industrial excellence

**BUILT FOR STRENGTH, ENGINEERED FOR SUCCESS**

# STRUCTURAL STEEL

We provide comprehensive structural steel solutions designed to meet the needs of a wide range of industries, including commercial, industrial, and civil construction. Our integrated team of project managers, engineers, and skilled fabricators ensures that every project is executed with precision, quality, and attention to detail from concept to completion.

We combine advanced engineering capabilities with industry-leading fabrication technologies to create custom steel components that exceed industry standards. Our facility is equipped with cutting-edge CNC equipment, welding stations, and high-capacity cranes, enabling us to handle even the most demanding structural steel projects efficiently and safely.

## KEY STRENGTHS OF OUR STRUCTURAL STEEL SERVICES:

- **Custom Fabrication:** Tailored solutions designed to fit unique project specifications and structural requirements.
- **Project Management:** End-to-end management ensuring seamless project execution, including design, fabrication, and delivery.
- **Engineering Support:** In-house engineers and strategic partnerships for comprehensive design and construction planning.
- **Quality Assurance:** Stringent quality control processes to guarantee compliance with the highest industry standards.
- **On-Time Delivery:** Dedicated logistics team ensuring timely project delivery through advanced scheduling and real-time tracking.

Our expertise in structural steel fabrication allows us to create robust and innovative solutions for any project, ensuring long-term durability, structural integrity, and customer satisfaction. Partner with AXE to bring your vision to life with industry-leading structural steel solutions.

**BUILT TO SPEC, CRAFTED FOR EXCELLENCE**

---

# CUSTOM FABRICATION

Our custom fabrication services are designed to transform your project's unique specifications into high-performance solutions. We specialize in fabricating complex components with precision and durability, ensuring each product meets the highest industry standards. From initial design to final assembly, our experienced team delivers tailored solutions for various industrial, commercial, and civil applications.

Our facility is equipped with cutting-edge technology, including CNC machining, advanced welding stations, and precision cutting tools. This allows us to handle custom fabrication projects of any scale or complexity while maintaining superior craftsmanship and consistent quality.

## KEY STRENGTHS OF OUR CUSTOM FABRICATION SERVICES:

- **Tailored Solutions:** Custom-built components designed to meet specific project requirements and operational goals.
- **Engineering Expertise:** Collaboration with in-house engineers and designers for innovative, project-specific fabrication solutions.
- **Advanced Technology:** Use of industry-leading fabrication tools and equipment for precise and efficient production.
- **Quality Assurance:** Rigorous inspection and testing processes to ensure every product meets or exceeds industry standards.
- **End-to-End Service:** Comprehensive support from concept development through fabrication, assembly, and delivery.

With a commitment to precision, innovation, and reliability, AXE stands as a trusted partner in delivering custom fabrication solutions that drive operational success.

# INSPECTIONS

We provide advanced inspection services designed to ensure the safety, reliability, and optimal performance of your critical assets. Our team of certified inspectors utilizes cutting-edge technology and industry-leading methods to conduct comprehensive inspections for industrial, energy, and manufacturing sectors. From detailed visual assessments to specialized non-destructive testing (NDT), we are committed to delivering precision and peace of mind for your most demanding projects.

Our inspection services include radiographic testing, ultrasonic evaluations, and eddy current testing, ensuring structural integrity and operational efficiency. We also offer remote visual inspections using advanced robotic crawlers and drones to access challenging areas safely and effectively.

### ICC SPECIAL INSPECTIONS

As part of our commitment to quality and compliance, AXE provides ICC Special Inspections to ensure projects meet the International Building Code (IBC) standards and other regulatory requirements. Our ICC-certified inspectors perform thorough evaluations across structural steel, welding, bolting, and other critical areas, ensuring full adherence to engineering and safety specifications. Whether for new construction, renovations, or ongoing compliance, our special inspections safeguard the integrity of your project and streamline approval processes.

### KEY STRENGTHS OF OUR INSPECTION SERVICES:

- **Comprehensive NDT Solutions:** Advanced techniques including radiographic, ultrasonic, and eddy current testing for in-depth asset evaluation.
- **Visual Inspections:** Detailed evaluations of pressure vessels, piping systems, and storage tanks performed by certified professionals.
- **Inspection Certification & Training:** Industry-leading training programs ensuring compliance with API, AWS, CWB, and other recognized certifications.
- **Tailored Inspection Programs:** Customized solutions designed to meet specific industry standards and project requirements.
- **Advanced Technologies:** Utilization of cutting-edge diagnostic tools like acoustic emission monitoring, corrosion mapping, and laser profilometry.

## WHY CHOOSE US

---

# Choose AXE

We combine industry-leading expertise with cutting-edge technology to deliver unmatched quality, precision, and reliability. Our certified professionals are committed to ensuring your project's success through customized solutions, comprehensive inspections, and exceptional customer service. With a focus on safety, efficiency, and on-time project delivery, we are your trusted partner for superior energy and industrial services. Experience the AXE difference — where excellence is our standard.
